I.I.S.S. "FIANI - LECCISOTTI" (<https://www.fianileccisotti.it>)

Nonostante la chiusura delle scuole il fiani-Leccisotti ci teneva a celebrare con tutti voi la giornata del "Pi greco-day". A presto!

March 14 is already known as Pi Day and celebrated in many countries around the world. It is named after the important number π , the ratio between the circumference and diameter of a circle and approximately equal to 3.14. To celebrate the beauty and importance of mathematics and its essential role in everyone's life the International Mathematical Union (IMU) has led the project to have UNESCO proclaim March 14 as the International Day of Mathematics (IDM). Every year a new theme will be announced to flavor the celebration, spark creativity and bring light to connections between mathematics and all sorts of fields, concepts and ideas. The theme for 2020 is: "Mathematics is Everywhere".

In fact, our class 4^B of Liceo Scientifico- Fiani Leccisotti, has organised a short "tv-show" about some curiosity of π . We have chosen to create videos that are funny and also instructive. After this, we have decided to talk about our last experience that we made last year, it was different because now we must respect the situation of the COVID-19 and so we have to stay at home, while last year we celebrated this day with all the school. We never give up, so we found an alternative way to remember this date!

So, hurry up and come and watch our video!

π DAY 4B a.s. 2019/2020
